Re: K&P Trail Update

As per the October 21, 2009 meeting of the Council of the County of Frontenac, the Frontenac K&P Trail Master Plan and the Frontenac K&P Implementation Plan have been approved (Motion #299-09 Moved by Councillor Beam and Seconded by Councillor Vanden Hoek). Copies of these documents can be found online at www.frontenacounty.ca. County Council also approved the application for Trans Canada Trail designation.

Following the October 21 meeting of County Council and the approval of the Master Plan and Implementation Plan, the County hired the engineering firm McIntosh and Perry Consultants to assess and design bridges along the trail with work commencing in the spring. The first phase of development will be to link the City of Kingston's portion to the Cataraqui Trail in Harrowsmith.

Another trail clean up day will be taking place this year on Saturday, April 24. Keep your eye open for flyers in local establishments or call 613-548-9400 ext. 330 for information.

Thank you for your interest in the K&P Trail!
